## The Front Yard Tree

As many of you know, the February blizzard was very unkind to the evergreen tree located in the front of the library. The tree has played a big role in the annual Christmas in Olde Bourne Village celebrations with its bright lights illuminating the grounds throughout the holiday season.

Thanks to the assistance of **Seaside Arborists** here in Bourne, a new tree will adorn the grounds in time for this year's celebration. The Friends of the Jonathan Bourne Public Library, Inc. are currently raising funds for a replacement tree that will be planted in the fall. Donations can be

sent to the library with checks made out to the Friends with Tree Fund written on the memo line.

**The Painted Ladies** art group of Bourne are also helping to raise funds by selling hand painted slate tiles here at the library and at their summer location at the windmill at Aptuxcet Trading Post. These tiles can be personalized upon request.

Thank you for all the community support as we work to replace the beloved tree this fall. When planting occurs, there will be a special event at the library and, of course, the lights will shine again this holiday season allowing for more memories to be made.

## Meet Local Author

### Kathryn Knight

As a child, Kathryn Knight kept her parents on a constant quest to find enough reading material to last her through each week. An early fondness for books about horses later

gave way to a lasting preference for both love stories and ghost stories; as a writer, the paranormal romance genre is a perfect fit. Silver Lake was Kathryn's first novel, followed six months later by the newly released Gull Harbor. She lives

on Cape Cod with her husband, sons and a number of rescued animals. She will be at the library on Wednesday, June 26<sup>th</sup> from 3-7 p.m. with copies of her books available for sale. (This coincides with the Friends of the Library Inc, preview book sale ...just a subtle hint). Please come say hi to Kathryn and find out about her "Passionate romances with a paranormal twist".
