“There’s no limit to where the library can take you”

## Spring Has Sprung?

Well, maybe on the calendar but Mother Nature certainly has had other ideas this season. At some point though, spring weather will arrive and once again we will all be able to work outside, raking, seeding, planting and all the other fun tasks we do to get ready for

summer.

The library is here to help you. From outdoor project books to gardening materials, the library has it all. Check out the new books (both hardback and eBooks) that will inspire or at least help to give instruction on how to complete tasks. Our Zinio online magazine database also provides full copies of magazines no matter where you are.

Looking for something new to do? Check out Universal Class. Real classes like Canoeing 101, Freshwater Fishing and Landscaping are available to take. Learn a new hobby today.

Yes, the spring weather will soon be here. (It has to come, right???) Let the library help you make it the best season yet. Check out all our resources at [www.bournelibrary.org](http://www.bournelibrary.org). Better yet, stop in to get your card today.

**Did you know – The library has a collection of pre-loaded mp-3 players called Playaways? Check one out today.**

## Big Thank You’s

Just a couple of big thank you’s to our customers and users. In February, CLAMS switched to a new computer system called Sierra. The library staff have worked hard to learn the system and make the transition as smooth as possible. There have been some minor blips along the way but with your patience and understanding, we have been able to accomplish the switchover fairly quickly. We continue to learn the new system and work towards providing all of you with the best possible service we can.

We also want to thank all of you for your patience as we have been short staffed for a while. Information Systems Librarian Deb DeJonker-Berry resigned to become library director in Eastham. Deb developed many programs and assisted a number of customers with their technology questions and information requests. We continue to strive to help all of you with your questions and hope to have a new person on staff soon.

## On The Trail of Bonnie & Clyde

Just in time for the 80<sup>th</sup> anniversary of their ambush in Gibson, Louisiana, Historian Christopher Daley returns to give the story and history of Bonnie & Clyde. Program will take place on **Wednesday, May 21, 2014 at 7:00 p.m.** in the large meeting room.

This lecture, which is part travelogue and part history will chronicle the story of Bonnie and Clyde separating the reality

from the myth! For years the public has been fascinated with the story of this Dustbowl Romeo and Juliet. However, much of what we know is mainly from the 1967 movie "Bonnie and Clyde" and more recently a highly fictionalized made for T.V. Movie shown on A&E & the History Channel. Much myth, conjecture and outright lies have grown up about the two Texas bandits but when one delves into the true story of the two lovers a much more interesting and human story emerges; much better than Hollywood was able to depict. This one hour lecture will tell that story through the use of period photographs and movies plus modern photographs and video shot by Mr. Daley, who has traveled through the states of Arkansas, Louisiana, Texas, Oklahoma and Missouri on the "Trail of Bonnie and Clyde" photographing and making video of the sites of their homes, murders, robberies, shootouts and hideouts. Along the way he met characters like L.J. "Boots" Hinton, the son of lawman Ted Hinton - a member of the posse that took down Bonnie & Clyde in 1934 and the mayor of dusty Kemp Texas who related a fascinating story of Bonnie's incarceration at the Kemp Calaboose.

Program is free with no registration required. Light refreshments will be served.
